Skills

- **Languages**: C++, Java, JavaScript, PHP, HTML5, CSS3, SQL, Python (basic)
- **Frameworks**: React.js, Node.js, Express.js, Tailwind CSS, STL
- **Tools/Platforms**: Git, GitHub, VS Code, Excel, Windows, Linux
- **Soft Skills**: Adaptive Learner, Team Collaboration, Creativity, Efficient Task Management

Work Experience

- **STEPS MANAGEMENT SERVICES PRIVATE LIMITED |** July 2024 – January 2025
  - Contributed creative graphic designs and engaging video edits to support the training academy.
  - Designed visual assets and edited videos for training programs while maintaining brand consistency and quality.
  - Capable of creating professional graphics and videos for real-world training, branding, and content creation needs.

Projects

- **The Quality Pulse |** November 2025 – December 2025
  - Developed a real-time construction quality assurance system to **streamline project monitoring** and ensure compliance accuracy across multiple sites.
  - Built RESTful APIs (improving data throughput by **40%**), integrated MongoDB for **99.9% reliability**, and designed a React dashboard for **real-time analytics visualization.**
  - Helped construction teams reduce inspection delays by **30%**, minimized compliance errors, and improved decision-making through live metrics.
    Tech: React.js, Node.js, MongoDB, Express.js, Git, VS Code

- **Music Streaming Website |** March 2025 - June 2025
  - Created a personalized music streaming platform aimed at improving user engagement through **mood-based song recommendations.**
  - Implemented a recommendation algorithm that increased average session duration by **35%**, optimized UI to reduce page latency by **25%**, and added secure login + advanced search.
  - Provided users with emotion-driven music discovery, which boosted listening satisfaction and enhanced streaming efficiency.
    Tech: HTML, CSS, JavaScript, PHP, MySQL

- **Frequency Counter |** January 2025 - April 2025
  - Designed an algorithmic solution to compute maximum-frequency elements for **fast and accurate data analysis.**
  - Built an optimized C++ algorithm using unordered map achieving **O(n)** performance and improving runtime by **45%** (120 ms → 65 ms).
  - Enabled high-speed analytics workflows such as pattern detection, log monitoring, NLP preprocessing, and statistical frequency calculations.
    Tech: C++, STL (unordered map, vector)

Certifications

- Mastering Data Structures and Algorithms by Board Infinity | June 2025 - July 2025
- Cloud Computing by NPTEL | January 2025 - April 2025
- Legacy Responsive Web Design V8 | September 2023 - October 2023

Extra-Curricular Activities

- Participated in the GSOC Cricket Tournament at Lovely Professional University, showcasing teamwork, discipline, and strong sportsmanship. November 2025
- Volunteered at Inara Foundation, successfully completing 48 hours of community service and contributing to social welfare initiatives. August 2025

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.6*** *August 2023 - Present*
- **Kendriya Vidyalaya (KV) AMC** Lucknow, Uttar Pradesh
  Intermediate; ***Percentage: 80%*** *April 2021 – May 2022*
- **Kendirya Vidyalaya (KV) AMC** Lucknow, Uttar Pradesh
  Matriculation; ***Percentage: 76%*** *April 2019 – May 2020*
